

# 4 Dim

Dimmer for 230VAC LED lights or dimmable LED bulbs.

## Features

- 220 – 240 VAC LED light dimming
- 4 channels
- Loads:
  - Capacitive loads (LED bulbs): Maximum 100VA per channel, maximum 10 LED bulbs per channel
  - Resistive loads: Maximum 250W per channel
- Short circuit protection, temperature protection per each channel
- Total load for the whole module max 4A
- Every dimmed light or group of lights needs to have its own N connected
- Leading edge / trailing edge - can be configured via the app
- Tested with Philips Warmglow and Ikea dimmable LED bulbs. We do not recommend using with E14 bulbs, as they do not have enough space for reliable electronics and may have a reduced lifespan.
- Energy consumption 1W / Power loss at maximum load 4W
- Operating temperature: -20 – 55 °C
- DIN rail, 6 modules. Width 107 mm, height 59 mm.
